**overview:**

Debut full-length album from the most relentless black metal band to emerge lately from depths of Poland's underground – STRANDHOGG. Grim, hypnotic, cavernous and extremely violent in execution, "Ritualistic Plague (Evangelical Death Apotheosis)" consists of eight death worshipping hymns of fear, death, suffering, pain and impenetrable black... Black Metal. Unrelenting violence, hatred, and contempt for the living world. The idea of STRANDHOGG is reality without hope, where all living beings co-exist with the Dead. The only strength and law is Death. Only Death Is Real! Through the theory of phantom's curse and mutilation mind fanaticism STRANDHOGG is neither religious nor political band. STRANDHOGG is pure orthodox Death worshipping cadaveric congregation.
